

TECHNICAL DATASHEET

Multi-Purpose Ready Mixed Filler

Description & Uses

Cromar Alpha Chem Multi-Purpose Ready Mixed Filler is a high performance filler suitable for interior and exterior use. Ideal for repairs to plaster, plasterboard, brick, wood, stone, etc. Easy to use and sand down, dries white, no shrink.

Directions

Preparation

For best results brush out loose material and dust from crack or hole to be filled. Hairline cracks should be slightly enlarged to ensure good filler penetration. Moisten absorbent surfaces with water. Touch in nail and screw heads with an oil-based paint to prevent rusting.

Application

Do not use externally when rain is imminent. If necessary, stir filler before use. In larger areas, apply filler in layers no more than 6mm thick, allowing each layer to set before applying the next. Fill slightly proud of surrounding surface and when fully set sand down to a fine finish. When used outdoor seal the filler with an oil-based paint, protect the filled area from rain and water until sealed. Do not use on surfaces regularly under water.

Cleaning

After use, ensure lid is firmly replaced. Clean tools with water before filler sets hard.

Storage

STORE IN A DRY PLACE, KEEPING SACHET CLOSED

Shelf Life

12 months from date of manufacture.

Limitations

- As the manufacturer cannot know all the uses its products may be put to, it is the user's responsibility to determine suitability of use. If in doubt, please contact Technical Services department for advice.
- **Please read the label prior to use for relevant health and safety information, Safety Data Sheet available on request.**
