

# TECHNICAL DATASHEET

## SOLVENT FREE ALPHA GRIP

### Description & Uses

SF ALPHA GRIP is a solvent free grab adhesive offering an instant and tough bond on virtually any surface, whether porous or non-porous. Once cured ALPHA GRIP SF provides a high strength bond that is hard to break.

Solvent Free ALPHA GRIP truly is multi-purpose, working on a wide variety of building materials including wood, plastics, metals, concrete, plasterboard, brick, cork and much more. This means that it is ideal for applications such as fixing panelling, window sills, carpet strips, skirting, loose floor or wall tiles, cove bases, aluminium strips, general repairs to woods etc.

As a solvent free formula SF ALPHA GRIP contains no harmful ingredients, making it safer for the environment and the user than its solvent based counterpart.

### Directions

- Ensure all surfaces are clean, sound, dry and free from dust, grease or other contaminants.
- Cut thread and then the nozzle to the required size. Apply with a sealant gun
- Surfaces should be pressed firmly together to assist the bonding.
- If bonding heavy panels temporary, mechanical support may be necessary for 24 hours.

### Storage

Store in cool, dry conditions between +5°C and +30°C. Protect from frost.

### Shelf Life

24 months when stored in original, unopened packaging.

### Limitations

- Do not apply to building materials that bleed oils, plasticisers or solvents.
- Do not use on substrates where both are non porous.
- It is the user's responsibility to ensure suitability for use. Safety Data available on request.
- Read the label carefully for essential health and safety information prior to use.

## Technical Data

<b>Application Temperature</b>	+2 to +30°C
<b>Service Temperature</b>	-40 to +60°C
<b>Consistency</b>	Thick paste
<b>Slump</b>	None
<b>Shrinkage</b>	Approximately 16%
<b>Coverage</b>	10 linear metres for a 6mm bead
