

TECHNICAL DATASHEET

Shed & Fence Treat

Description & Uses

AlphaChem Shed and Fence Treat is a water based decorative water repelling timber treatment, that brings to life the colour of new or previously treated timber. For use on sheds, gates, fences and timber posts. The product is harmless to both animal and plant life. The product is available in Dark Brown, Light Brown, Red Cedar and Green.

Directions

- Prior to application, ensure that all surfaces are clean, dry and free from dust, algae and organic growth.
- Ensure that the contents of the container are thoroughly mixed prior to use. In order to ensure the finished colour meets your satisfaction, it is advisable to carry out a trial application.
- Apply by brush or sprayer, ensuring the timber is completely coated in a uniform application.
- A second coat can be applied, if deeper colour intensity is required.
- Depending on weather conditions, drying times will vary. However, the product should NOT be applied when frost or rain are imminent.
- It is the user's responsibility to dispose of all packaging correctly.

Cleaning

Brushes can be cleaned by rinsing immediately after use under clean running water.

Coverage

Approximately 5 sqm/litre per coat depending on the type and condition of wood.

Storage

Protect from frost ideally stored at ambient temperatures, between +5 to 30 ° C and in original containers

Shelf Life

Minimum 12 months provided kept in original containers and storage conditions as recommended.

Limitations

- Read the label prior to use for health and safety information
