

TECHNICAL DATA SHEET

BONDING FELT - 18kg + 36kg

Issue 5 – October 2015

Uses: Intended for use in built-up roofing as an underlay or cap sheet. Using a traditional fibre based carrier, the membrane offers excellent application characteristics and is suitable in either repair applications or as part of built-up roofing.

Performance Features:

Correctly installed, Cromar Bonding Felts will provide a long life to built-up roofing systems. The membrane is installed by using traditional hot bonding techniques described in BS Code of Practice 144 Part 3. It can be cut and formed using sharp hand tools.

Do not expose the membrane to hydrocarbon based solvent products.

Storage and Handling:

Do not drag rolls across rough surfaces, they should be lifted. Rolls should be stood on their ends on a dry surface. If using pallets do not stack more than two pallets high. Avoid mechanical damage and damp storage conditions.

Technical Performance Data (Typical):

Carrier:	280g/m ²	Rag Fibre Material
Roll Size:	10m	20m
Nominal Roll Weight	18kg	36kg
Nominal M ² Weight:	1.8kg	1.8kg
Rolls per Pallet:	42	25

Health & Safety:

There are no harmful effects or Health + Safety Hazards related to Cromar Bonding Felts. However, we recommend that all installers observe and implement Health and Safety regulations in relation to the hot bonding material and heating equipment used.
